

KEY - FEATURES

Precharged with R134a refrigerant

Very robust structure

Low maintenance

Up to 5 ventilation speeds

Main Advantages:

Operator comfort – Provides a comfortable cab temperature.

Perfect match for your vehicle – Available in 12V or 24V, with manual or automatic temperature control and suited for different cab types (with or without hatch).

Endurance – Designed for vehicles working in demanding, harsh and heavy environments.

INTEGRAL POWER II

Heavy Duty AC System

ELECTRIFIED AIR CONDITIONING SYSTEM

INTEGRAL POWER II

Our All-in-1 solution

Standalone roof-mounted
air conditioning unit

Powered directly by the vehicle battery, Integral Power II is the ideal solution when there is not an original air conditioning installed, when additional AC is required or an additional air conditioning system needs to operate with the vehicle engine off.

Voltage	12V	24V
Cooling capacity (*)	1,5 kW 5,100 BTU/hr	2,1 kW 7,000 BTU/hr
Elect. consumption	55 A/hr	45 A/hr
Maximum air flow	290 m ³ /h 170 SCFM	320 m ³ /h 190 SCFM
Dimensions	664 x 765 x 217 mm 26.14 x 30.12 x 8.54 in	
Weight	37,5 kg 82.67 lb	

The cooling capacity was determined in the following conditions:

- inside temperature, 90°F (32°C)/relative humidity 50%
- outside temperature, 100°F (38°C)

Manual Model - Inner Console

Cabin roof cut template

Benefits & Features

- Installation without touching the vehicle engine
- Robust AC system for demanding applications
- Maintains a comfortable temperature inside the cabin
- Digital thermometer (°C or °F)
- 3-speed ventilation
- Low maintenance
- Pre-charged system
- Available in 12V and 24V

Rooftop Mounting Position

Installing this product may affect ROPS/FOPS capability to provide the required protection. Check compatibility with your vehicle manufacturer. The manufacturer of the roof AC system assumes no liability whatsoever.
