OPEN AIR ROOFTOP AC ELECTRIFIED AC SYSTEM

Our Compact Electrified Solution

Roof-mounted electrical
air conditioning unit

Designed to cool RV vehicles up to 7 meters, the new Open Air 12V Full Inverter(*) provides the best cooling to make your trips unforgettable.

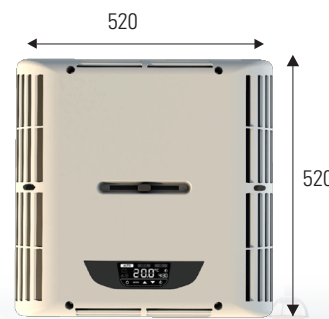

You can set up home in stunning surroundings or, if you prefer, spend the night on the road. Forget about everything and dedicate yourself to enjoy your trips with the perfect temperature wherever you go. Because home is where you park.

With only direct connection to the vehicle's battery, it provides a soft start without vibrations and a pleasant feeling of silence. Its greater efficiency provides great energy savings and a longer life of the system.

Its reduced height makes it the lowest profile last generation A/C unit in its category. With more than 2,000W of power with multiple mounting positions makes it unique option in the market.
