

KEY - FEATURES

Very robust structure

Low maintenance

Up to 5 ventilation speeds

Main Advantages:

- Operator comfort – Provides the best cooling to make trips unforgettable.
- Perfect match for your RV vehicle – Home is where you park it.
- Efficiency – Provides great energy savings and a longer life of the system.

RV Systems

HVAC System

SINGLE ZONE UNIT

Benefits & Features

- Drop in replacement for previous system
- Coil box mounted under the hood
- Blower assembly mounted in the dash
- 10% improvement in capacities for heat & AC
- Electric unit with 4 ventilation speeds

Voltage	12V
Power	6,2 kW 21,500 BTU/hr 6,5 kW 22,180 BTU/hr
Elect. Consumption	10.8 amps
Dimensions - Blower Assembly	639 x 256 x 199 mm 25.2 x 10.1 x 7.8 in
Dimensions - Coil Assembly	492 x 482 x 203 mm 19.4 x 19.0 x 8.0 in
Weight	19,06 kg 42 lb

ALL-IN-ONE SINGLE ZONE HVAC UNIT

Benefits & Features

- Blend air system results in faster temperature response time
- Elimination of heater control valve
- Frees up real estate under the hood
- 25% improvement in capacities for heat & AC
- Reduced installation time
- Weight reduction from current system

Voltage	12V
Power	9,5 kW 32,300 BTU/hr 7,3 kW 24,780 BTU/hr
Elect. Consumption	10.8 amps
Dimensions	579 x 485 x 4110 mm 22.8 x 19.1 x 16.2 in
Weight	10,89 kg 24 lb

DUAL ZONE UNIT

Benefits & Features

- Brushless high efficiency dual shaft blower motor
- Infinite blower speed control
- Independent blower speed
- Independent temperature control
- Fresh air and recirculation air filtration

Voltage	12V
Power	7,1 kW 24,225 BTU/hr 6,6 kW 22,520 BTU/hr
Elect. Consumption	15.2 amps
Dimensions - Blower Assembly	254 x 457 x 330 mm 10 x 18 x 13 in
Dimensions - Coil Assembly	457 x 533 x 330 mm 18.0 x 21.0 x 12.0 in
Weight	12,7 kg 28 lb

ALL-IN-ONE DUAL ZONE HVAC UNIT

Benefits & Features

- Brushless high efficiency dual shaft blower motor
- Infinite blower speed control
- Fresh air and recirculation air filtration
- Independent temperature control
- Unit mounting the same as all-in-one single zone unit

Voltage	12V
Power	Coming March 2025
Elect. Consumption	Coming March 2025
Dimensions	579 x 533 x 411 mm 22.8 x 21.0 x 16.2 in
Weight	12,7 kg 28 lb
